

## Project Data Sheet

Project  
▶ **Public Drinking Water Supply**

Location  
▶ **Leighton, PA**

Client  
▶ **Schleicher Trailer Park**

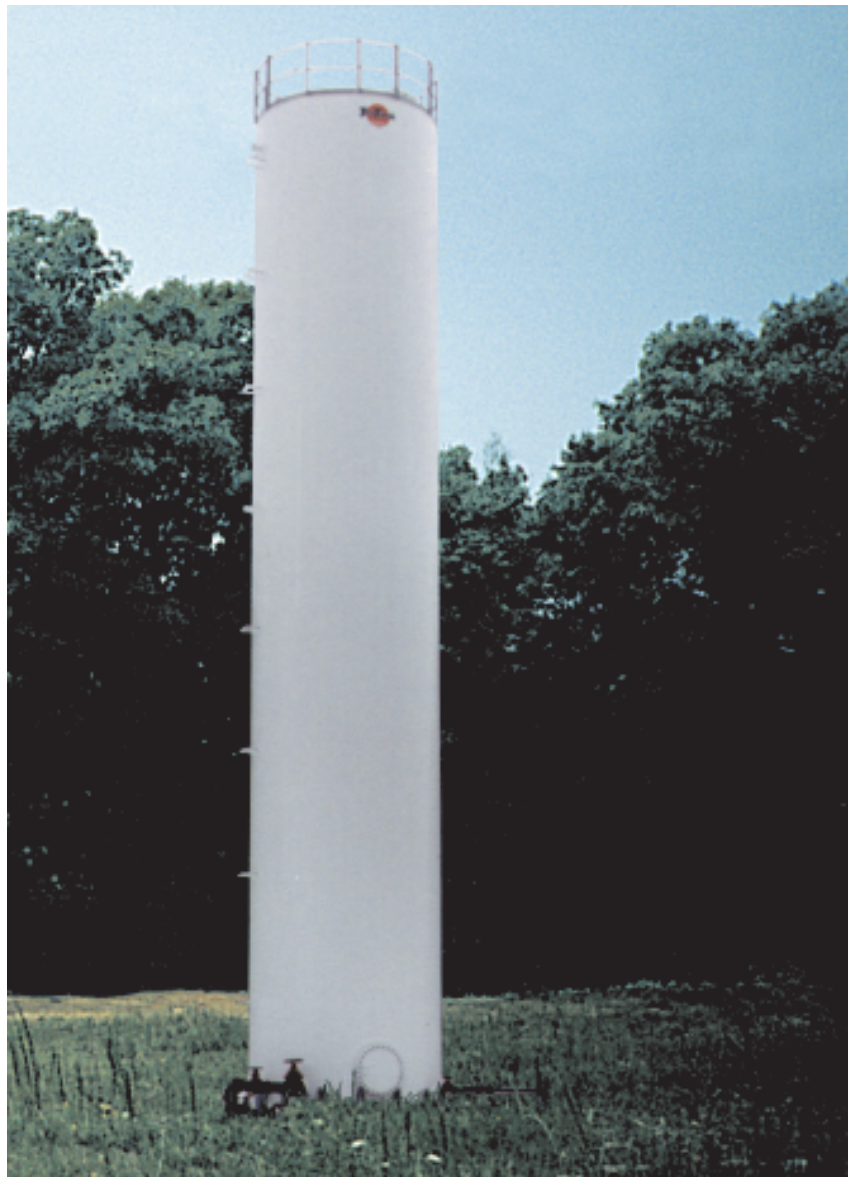

Project Background  
▶ **This welded standpipe is for domestic water supply for a 96 unit mobile home park. The interior coating is TecThane 700+, a factory baked-on coating system which is NSF Standard 61 approved for the storage of drinking water. The exterior coating system consists of a rust inhibitive polyamide epoxy primer with an acrylic urethane baked-on finish that will retain its gloss and color even in severely corrosive and marine environments. The exterior topcoat is also graffiti resistant, and Columbian TecTank can supply a special cleaner that will remove such products as aerosol spray paint and felt tip marker.**

Completed  
**1996**

Tank Diameter  
▶ **11' inside diameter**

Tank Height  
▶ **59' 2" shell height**

Capacity  
▶ **Level full 42,065 gallons**

**Columbian TecTank**
